BHAGAVAD GITA IS A MANUAL FOR YOUR LIFE

Living is an art, skill, technique that needs to be learnt and practised. The Bhagavad Gita presents the eternal principles of life and living which transcend race or religion. The principles equip one with a strong intellect to meet the challenges of the world and achieve success and peace in all aspects of one's life – official, social and domestic. Above all they usher one towards the ultimate perfection, the goal of spiritual Enlightenment.

THE LAW OF KARMA

The entire universe is governed by the law of karma: cause and effect. Every cause has an effect and every effect a cause. There is no such thing as luck or accident. No extraneous power shaping your life. You are the architect of your fortune, you are the architect of your misfortune. You reap what you sow. Your past actions determine your present destiny. And your future is your past modified by the present. Selfish action leads to suffering and sorrow while unselfish action engenders peace and prosperity.
